

Alejandro Lozano

Technical Product Manager with a data and BI backbone

Barcelona, Spain
lozpastor@gmail.com
linkedin.com/in/alejandro-lozano-pastor

I spent two years building the data that banking risk decisions run on. Now I decide what gets built on top of it. Product decisions land better when you know what the pipeline can actually do.

EXPERIENCE

Product Management Office — Recoveries & Underwriting

Management Solutions · Barcelona · Sep 2025–Present

- Own the product backlog across core banking initiatives involving business, technology, risk and operations.
- Write user stories and acceptance criteria in Jira; maintain functional documentation in Confluence.
- Run Agile/Scrum ceremonies, validate UAT evidence and track roadmap milestones and operational KPIs.

Data Engineer — Risk & Regulatory Data

Management Solutions · Barcelona · Nov 2023–Aug 2025

- Consolidated more than 100 recurring risk reports into six Power BI dashboards, reducing reporting workload by over 90%.
- Designed and optimised SAS and SQL pipelines for COREP regulatory capital reporting at a G-SIB.
- Added reconciliation and quality controls across provisions, RWA and CET1; regulatory ETL efficiency improved by over 50%.

SELECTED BUILD

Macroeconomic Dashboard

Personal project · Jun 2025

- Rebuilt a Power BI concept as a responsive HTML, CSS and JavaScript application for economic KPIs, time series and multi-country comparison.

CAPABILITIES

Product & Delivery
